

A MESSAGE FROM YOUR CEO

Each and every year we await the publication of our Annual Membership Directory of the Greater Eureka Chamber of Commerce with eager anticipation. This year we are especially excited to share the directory with our members and community, as we feel it is the most robust in recent Chamber history, proudly providing information about our businesses, community and economic opportunities in Humboldt County. We hope you agree.

The 2021/2022 Edition was distributed on Sunday October 17th by the Times Standard and copies are available here in the Chamber lobby and on-line at the Times Standard and [our website](#).

Inside you will find that our members are highlighted and there is a directory of local businesses within their categories that offers our community the opportunity to easily search for what they need and to patronize businesses that in turn support our local economy.

2021 has been a very busy year with the Chamber advocating for local businesses and the Board taking positions in the area of Broadband, the harbor district and in particular Nordic Aquafarms. Our committees have been working hard and we have highlighted with an article, the the efforts of our Business and Education Committee to support and promote Building Careers in Trade.

Equally as exciting has been our support of HSU's transformation to becoming California's 3rd polytechnic university, meeting the need for Broadband access for Humboldt County and Humboldt County's aviation. Each of these topics is featured in articles by guest writers who share their perspectives on these significant economic drivers.

The ever popular Chamber business award winners of 2020 have been highlighted and we honor those businesses for their excellence and community involvement.

As we look back at the last 12 months, we hear from our Chair, Scott Pesch, who has navigated us smoothly through the rocky waters of the pandemic. You will also find that our incoming Chair, Linda Wise will be championing our business members and community using our recently revised mission statement as the guide.

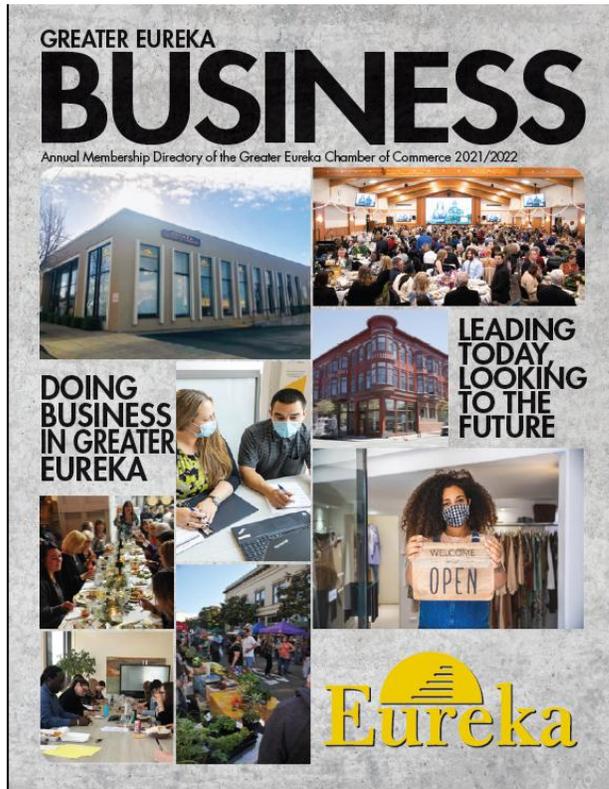

I would like to thank our membership for supporting the magazine and its articles by promoting themselves in this robust edition. I encourage you to support all of them by supporting local!

2021 proved to be a turning point for the Chamber, adding 2 additional staffers to create programs such as ELEVATE, our free digital marketing and E Commerce training program, our HQ coordinator that supports our Flex Work space and on-line collaborations and training. We have also partnered with Energy Upgrade California to support the efforts to save our members and families hard earned dollars by learning how to conserve energy and help prevent power outages via flex alerts.

We are proud of our Board, committees and staff for their dedication and accomplishments this year and we encourage you to pick up your copy of the directory at our office or go on-line to learn more.

Here is to an even stronger 2022!

New 2022 California Employment Laws

The COVID-19 pandemic was still challenging for the California Legislature, but that didn't stop it from sending several hundred bills to the Governor, many of which impact California employers.

Here's a quick look at some of the new employment laws that employers should be aware of. Unless otherwise stated, they're effective starting January 1, 2022.

Join the #KeepItGolden Movement

As our partnership comes to a close, we would like to give a final reminder on the decisions that each and every one of us can consciously make to save energy, save money, and prevent devastating power outages in California.

1. Switch off lights and unplug small appliances when not in immediate use.
2. Use natural sunlight, wear extra layers, and limit the use of space heaters to stay warm
3. Wash your clothes on the cold cycle. 90% of the energy used for washing clothes is used to heat the water.

Sign up for Energy Upgrade California's fun and free Goldie program for more tips and tricks like these sent directly to your phone weekly!

Certify & Amplify Virtual Workshop

November 2, 2021

10:00 - 11:30 a.m.

Small
diverse
businesses who
certify have special
access to multimillion
\$ contract
opportunities with
utilities, large and
small, across the
State

RCEA is hosting a free webinar to introduce local businesses to benefits and opportunities available through California Public Utilities Commission's Supplier Diversity program.

If you are a small diverse business owner, we want to help you certify in the California Public Utilities Commission's (CPUC's) Supplier Diversity program and amplify your business opportunities throughout the state. Register *on our website* to learn about the benefits and opportunities available through this certification and how to access California's multimillion-dollar utility contracting clearinghouse.

Commonly referred to as "Supplier Diversity," *General Order (GO) 156* is a statewide program that encourages utilities to prioritize contracts and subcontracts from businesses that meet diversity qualifications. To qualify, businesses must be 51% woman-owned; minority-owned; lesbian, gay, bisexual, transgender (LGBT)-owned; or disabled veteran-owned enterprises. After being certified as a diverse supplier, qualified businesses are listed in the CPUC's *Clearinghouse*, which utilities can then access for their contracting needs and to meet their contracting quotas.

The COVID-19 pandemic has squeezed our local businesses into even more competitive environments and tighter margins, making Supplier Diversity certification another way to get local businesses noticed and ensure that they stand out among the competition.

RCEA wants to make sure that businesses in our communities are aware of this program, know how to qualify for the Clearinghouse, and get their questions answered by our **guest speakers from the California Public Utilities Commission, Pacific Gas & Electric, and a local business like themselves.**
